### EDITOR'S COLUMN

Greeting to Our Members!

How I long for mundane! Most of you have follow news of the Hurricane Katrina disaster, but I feel compelled to send my thoughts from Mississippi. Our beloved antebellum coast is in shambles, yet here and there are spots of antiquity.

During the storm, my sisters and I watched as large pine trees fell quietly around us. A house wren clung to a nail under the porch for hours, returning later with its mate. Hummingbirds came to feeders throughout the storm, although their wings were nearly too wet to fly. My grandmother's home, built when the Gulf Coast was still curbed by a concrete seawall, was washed away. One sister from Bay St. Louis lost her three-story home. Another sister, with her dog, has been living with us while awaiting a FEMA trailer. Our home was spared major damage.

#### **UPCOMING MEETING**

♦  
50<sup>th</sup> Annual Meeting  
May 18-21, 2006  
**Renaissance Toronto Hotel  
Downtown  
Toronto, Ontario, Canada**

One of my favorite former work places, Chalmette, Louisiana, was decimated. This town, South of New Orleans and "below the River", was made up of fishermen, blue-collar workers, and mostly large Catholic families. In the Emergency Room, I learned to not "call a code" until the priest had come, even at 3AM. Their jobs and lives have been destroyed. There are no boats, no harbors, and worse yet, the waters are contaminated. The two hospitals are closed.

The medical community has been tireless in its help and concern. Many medical personnel remained on task for up to two weeks after the storm before returning to their families. Every major medical organization has described suffering, losses, and recovery stories of Katrina victims. The MS State Psychiatric Association has worked to help our members as well as our patients, creating a specific committee for Katrina issues

Now, in the quieter aftermath, there is time to reflect on the losses. How can we compare to the tragedies occurring in Pakistan? Or to Iraq? Or Africa?... the list is endless. Many have predicted, "It will take (fill in the blank) *weeks; months; years* to recover. I believe it will take at least one generation.

For our members directly affected by Katrina and other disasters, please send your information by mail, e-mail, telephone or fax. Including a telephone number will help if there is a need to clarify any unclear item

As always, Academy members are active in teaching, traveling, and spending time with family. I hope you enjoyed the December meeting in New York, and I look forward to seeing you in Toronto this summer.

Warmly,

Sharon West, MD

## PRESIDENT'S COLUMN

November 2005

Dear Academy Colleague:

As the winter holidays fast approach, so too does the New York meeting at The New York Psychiatric Institute-Columbia University College of Physicians & Surgeons. Cesar Alfonso and his committee have assembled a fascinating and innovative program of workshops to choose from. You may recall that the format for this meeting is a pilot project while the voting on our constitutional amendments was in process.

I report to you that both amendments recently put to our voting membership were overwhelmingly approved. One of these changes the *requirement* of having two scientific meetings per year; this now permits the Program Committee and Executive Council to have more or less than our one required meeting held each May before the meetings of the American Psychiatric Association. Additional meetings may be held and the format of these meetings can take any shape from study trips to workshops to customary scientific programs. Alternatively, the Academy is also permitted to now have only one meeting in a given year if that is the sense of the Membership and Council. It should be noted that in addition to the May meeting, we continue to have a meeting each year with OPIFER in different Italian settings. Our next meeting with OPIFER is planned for November 2006.

The second constitutional change now creates the category of membership named *Psychiatric Fellow* permitting fellowship status on our psychiatric members meeting the specified criteria. This amendment, like other recent ones before it, arose at the Future Directions Forum established by Ann Ruth Turkel during her presidency and co- led by Ian Alger and myself. It was strongly felt that this amendment was required to give appropriate recognition to qualifying psychiatric members-present and future. I am also pleased to report to you that membership is stable and our finances have not been in better health in recent memory

thanks to the tireless efforts of our Secretary Joe Silvio and our Treasurer Jennifer Downey.

Lastly I'd like to announce that I have formed a task force consisting of the present and next two presidents of our Academy [myself, Sherry Katz-Bearnot and Joan Tolchin] under the chairmanship of our Long Range Planning Committee Chair Ian Alger, to select a consultant who would be charged, if approved by Council, to work towards marketing the Academy, growing our membership, and revitalizing our image and programs as we prepare for our 50<sup>th</sup> Anniversary. The Academy has evolved over the past half-century and we want it to continue to thrive into the future.

The 50<sup>th</sup> Anniversary celebration meeting will be held in Toronto next May. That program is well under way under the leadership of co-chairs Silu Olarte, MD and Gerald Perman, MD. A number of special events are in the planning to appropriately mark this most special occasion.

I close with our continued well wishes and thoughts for our colleagues affected by the recent Gulf hurricanes.

Warm Regards,

*Joseph P. Merlino, MD, MPA*

#### **ORGANIZZAZIONE di PSICOANALISTI ITALIANI-FEDERAZIONE e REGISTRO (OPIFER)**

An outstanding joint meeting was held by the Academy with the Organizzazione di Psicoanalisti Italiani-Federazione e Registro (OPIFER) in Bologna, June 24-26, 2005. The title of the meeting was "The Relational Paradigm in Psychoanalysis." Dr. Douglas Ingram, the Editor of *The Journal of the American Academy of Psychoanalysis and Dynamic Psychiatry* and a past President of the Academy was the Keynote Speaker from the USA. His scintillating talk was on "Teaching the Mysteries of Dynamic Therapy.

In addition, Dr. Ingram gave a thoughtful paper, on "The Clinical Use of 'Hidden Metaphors'," on the panel concerning "Metaphors Within the Relationship." Dr. John Stine also participated on the panel, presenting a stimulating paper on "The Use of Metaphors in the Service of the Therapeutic Alliance and Therapeutic Communication." Dr. John Stevens from the Royal College of Psychiatrists led a lively discussion.

Dr. Carlo Filiaci was an excellent Chair of the panel, "Witnessing Death," that dealt with working with terminally ill patients. Additionally, he provided able bilingual translation throughout the meeting.

Dr. Claus Bahne Bahnson, who has written about and worked extensively with terminally ill patients, presented a clinically rich paper on the "Crises in Families with Cancer Patients: The Psychotherapeutic Approach."

Dr. Sergio Dazzi expertly chaired the panel, "Rethinking Field and Effects of the Analytic Relationship." On that same panel, Dr. Edward Greene gave a very interesting paper on "Family Therapy and Psychoanalysis." The presentations by our Italian colleagues were equally outstanding.

In November, 2006, OPIFER will be commemorating its tenth anniversary with a celebratory meeting in Florence. Dr. Sergio Caruso, President of OPIFER, and the organization's Executive Board have cordially invited the Academy to hold its joint meeting in Florence at that time. As soon as the dates and more details are known, the membership will be informed. All members of the Academy are welcomed and encouraged to attend.

*Joan G. Tolchin, MD*
